

ON THE HILL

The Next Big Step for the LAC

BY JOHN MORRIS
UTAH LAC COMMITTEE CHAIR
MCKAY, BURTON & THURMAN

The members of the LAC are already looking forward to the 2012 session in several ways. There are always ideas for new legislation, but this is not our only focus.

An important focus of the LAC right now and the LAC's next big step is to integrate LAC activities and legislative information into real time interactive communication with our constituents. In short, our goal is a two-way near-real-time dialog with managers, board members, owners and industry partners about pending legislation both before the session and during the session.

Those willing to participate in this communication and interested in pending legislation affecting community

associations can sign up. Then, regular emails would provide both information and an opportunity to respond through polling and questionnaires about pending legislative activities. The offshoot of this communication and involvement is my personal goal for next session.

On two day's notice, I want to be able to draw at least one hundred people to a hearing on any particular legislation, either in support or in opposition. We want to send the message to our legislatures that we really do represent tens of thousands of voting constituents and, hopefully, continue to increase our political effectiveness as we work for sensible community association laws.

Suffering from management headaches?

Take two of these and call us

IMMEDIATELY!

We are HOA experts, and we understand your pain. Let us make it go away!
